Full-Stack Web Application Development (2025)

IBM

Machine Learning (2025)

NPTL

Python Programming(2023)

Ardent

PROJECTS

ShopEase – E-Commerce Platform (2025)

- Built a scalable e-commerce website with login/authentication, cart, order tracking, and admin dashboard

Weather Climate Application(2025)

- Developed a responsive React weather app with real-time API integration, dynamic forecasts, and local storage for user preferences

AI-Based Multi Disease Detection System(2026)

- an AI-powered healthcare web application developed using Django, Python, and Graph Neural Network (GNN) technology. The system is designed to detect multiple diseases accurately by analyzing patient data with machine learning techniques. A user-friendly interface was created using Django to allow easy data input and result visualization

ACHIEVEMENTS

Offer Letter

Selected for the position of Junior Software Developer at SPCL with an annual CTC of ₹2.4 LP

IBM Full-Stack Training – Developed apps with React, Node.js & MongoDB

Developed apps with React, Node.js & MongoDB

Python Programming Training

Swami Vivekananda University Completed training in Python Programming(2023)
